SECTION 4: First aid measures

4.1 Description of first aid measures

General information:	Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident. Immediately remove any clothing soiled by the product.
	In case of irregular breathing or respiratory arrest provide artificial respiration.
	Take affected persons out of danger area and lay down.
After inhalation:	Supply fresh air and to be sure call for a doctor.
	In case of unconsciousness place patient stably in side position for transportation.
After skin contact:	Immediately wash with water and soap and rinse thoroughly.
	If skin irritation continues, consult a doctor.
After eye contact:	Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.
After swallowing:	Do not induce vomiting; call for medical help immediately.
<i>4.2 Most important symptoms and effects, both acute and</i>	
delayed	No further relevant information available.
4.3 Indication of any immediate	
medical attention and special	
treatment needed	No further relevant information available.

SECTION 5: Firefighting measures

5.1 Extinguishing media	
Suitable extinguishing agents:	CO2, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
For safety reasons unsuitable	
extinguishing agents:	Water with full jet
5.2 Special hazards arising from	1
the substance or mixture	Can form explosive gas-air mixtures.
	Formation of toxic gases is possible during heating or in case of fire.
	Carbon monoxide and carbon dioxide
5.3 Advice for firefighters	
Protective equipment:	Wear self-contained respiratory protective device.
	Do not inhale explosion gases or combustion gases.
Additional information	Cool endangered receptacles with water spray.
	Dispose of fire debris and contaminated fire fighting water in accordance with official regulations.
	Collect contaminated fire fighting water separately. It must not enter the sewage system.

6.1 Personal precautions, protective equipment and	
emergency procedures	Mount respiratory protective device.
0 11	Wear protective equipment. Keep unprotected persons away.
	Ensure adequate ventilation
	Keep away from ignition sources.
	Avoid contact with the eyes and skin.
6.2 Environmental precautions:	Do not allow to enter sewers/ surface or ground water.
	Inform respective authorities in case of seepage into water course or sewage system.
6.3 Methods and material for	
containment and cleaning up:	Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).
	Do not flush with water or aqueous cleansing agents.
	Dispose of the material collected according to regulations.
